---

## **Summary**

Frontend Developer with 3+ years of experience building responsive, accessible, and user-centric interfaces using React, Next.js, and TypeScript. Passionate about creating seamless user experiences and translating business goals into performant, scalable applications. Adept at cross-functional collaboration and committed to clean, maintainable code. Seeking to contribute to mission-driven teams that value creativity, autonomy, and growth.

---

## **Experience**

### **Frontend Developer**

*Cellular Sales* – Knoxville, TN

**Nov 2022 – Apr 2025**

- Spearheaded the rebuild of the company website from WordPress to Next.js, significantly improving performance, SEO, and maintainability
- Collaborated with designers, product owners, and back-end teams to develop intuitive UI components aligned with business objectives
- Implemented responsive design systems, reduced load times, and improved Core Web Vitals using best practices in web performance
- Advocated for accessibility and inclusion in UI decisions and documentation

### **Application Development Analyst**

*Accenture* – Remote

**Oct 2021 – Nov 2022**

- Developed custom web applications using React and JavaScript, optimizing client workflows and improving UX
- Built reusable, accessible UI components to support large-scale enterprise systems

- Contributed to agile sprints, collaborated with global dev teams, and adapted quickly to changing priorities and specs

### **Service Delivery Ops Analyst**

*Accenture – Remote*

**Mar 2018 – Oct 2021**

- Automated internal front-end tasks and optimized dashboards, reducing repetitive manual work
  - Enhanced operational workflows through basic scripting and UI streamlining
- 

## **Projects**

### **Company Website Redesign**

*Cellular Sales*

- Led the full rebuild of the company website in Next.js, improving page speed, mobile performance, and conversion
- Integrated RESTful APIs and built modular components to future-proof development
- Closely aligned with designers and stakeholders to maintain brand consistency while increasing interactivity

### **Crochet Cosmos (In Progress)**

- Building a responsive e-commerce site for handmade crochet goods using Next.js, Tailwind CSS, and Supabase
  - Developing admin dashboard for product management and integrating Stripe for secure payments
  - Designed flexible product variation system for dynamic product displays and inventory tracking
- 

## **Education**

## **AA in Psychology**

Evergreen Valley College — San Jose, CA

*Sep 2013 – Dec 2015*

---
